QUALITY

Whether in the city or on forest paths: Wozinsky bags, lamps and helmets will prove themselves on many routes. Durable, stable and very roomy purses for the trunk, handlebar, frame or saddle will make you feel comfortable on any trail.

SECURITY

Do you like off-road bike trips? Wozinsky bags are good for any challenges. They are made of strong materials (including Oxford or EVA) with high resistance to wear and various weather conditions. They resist tearing, scratching, dirt, rain or snow. The bags have no visible seams, they are extremely easy to clean - they perfectly protect their contents.

FUNCTIONALITY

When designing Wozinsky bags, we focus on maximum usability. They are matched to many models of frames and handlebars thanks to a variety of fasteners: Velcro, buckles or hooks. They have built-in components such as buckles and clasps that will not break or fall off. Many of them have reflective elements that will ensure visibility at night.

Not enough? The offer also includes models of bags for the frame or the steering wheel with a transparent foil, which allows you to conveniently use the phone without having to take it out while driving.

MOUNT IT WHERE YOU WANT

More than one way to attach is... Wozinsky. You can attach thermal cycling bags to the handlebars, frame or under the saddle. Strong, adjustable Velcro fasteners ensure good stabilization of the purse. In addition, a fabric has been sewn inside the bag that will maintain the temperature of the drink regardless of the weather. Just how you like it!
